

ENERGY PROJECTS

Energy Projects is a division of Energy Engineered Products focusing on both large and small projects in the supply of industrial materials. We understand what it takes to be a successful supplier to your projects:

- Sourcing from reliable and certified manufacturers
- Compiling of a complete package
- 3rd Party inspections and inspection procedures
- Quality control
- A skilled team to handle each project
- Logistical expertise and planning
- Expertise in contractual terms and conditions

Our customers benefit from our experience gained over many successful years in this field. Our tenders are:

- Comprehensive and competitive
- Compliant with tender conditions and specifications
- Supplied by quality manufacturers
- Managed by our highly experienced and focused team of project personnel.

HEAT EXCHANGER TUBES:

- Stainless steels welded & seamless
- Carbon steels & ferritic alloys
- Nickel Alloys, Copper Alloys
- Supplied in lengths & as U tubes

PIPING AND TUBING:

- Schedule pipe & tube - welded & seamless
- Stainless steels, carbon steels, alloy steels, HDPE
- Nickel alloys & other special metals

FITTINGS, FLANGES AND ACCESSORIES:

- Butt weld, socket weld, & threaded fittings
- Forged fittings, flanges, gaskets, & fasteners
- Specialized fittings & accessories

VALVES:

- Comprehensive range of shut off & control valves
- Specialist nickel alloy valves
- Certified fire safe valves
- Valve accessories including actuation

PROFILES:

- Round bar, hexagon bar, angles & flat bar
- Stainless steels & nickel alloys
- Special cut & fabricated sections

SHEET AND PLATE:

- Rolled products including plate, sheet, coil & strip
- Mainly stainless steel related
- Cut plates & laser cut pieces to customers drawings

Energy Projects works in close association with our sister company Multi-Alloys, a supplier of specialist alloys which include:

NICKEL BASED ALLOYS:

- Alloy 400, Hastelloy C276, Hastelloy C22, Alloy 600 & many others

IRON BASED ALLOYS:

- Alloy 20, 904L, Alloy 2205, Alloy 2507, Grade 316Ti, 310 & 17-4PH

OTHER ALLOYS:

- Titanium, Beryllium Copper, & ToughMet®

MULTI ALLOYS

SPECIALIST METAL SUPPLIERS
